

TINTINARA FEEDLOT PROJECT MOBILE CONCRETE BATCHING

LOCATION	Tintinara, South Australia
CLIENT	Iranda Beef
CONTRACT	
COST	Confidential
DURATION	Jul 2015 – Oct 2015

Tintinara Feedlot Project utilised ResourceCo’s mobile concrete business. The project saw an expansion of the Iranda Beef’s feedlot system. The expansion will allow 10,000 cattle to be fed at one time.

Iranda pride themselves on implementing modern and efficient feedlots that operate in line with the best possible feeding outcomes.

ResourceCo spent 4 months on the project supplying a total of 2330 m³ tonnes of concrete for the expansion.

Our mobile capabilities allow us to supply into South Australian regional / remote areas.

Project scope included the following;

- supply of suitable kerb machine mix (32mpa)
- Supply of hardstand area (25mpa)
