COMPANY OVERVIEW

WHO WE ARE
The ResourceCo Group (ResourceCo) is a leading environmental solutions company specialising in resource recovery, recycling, waste management, and alternative fuels production. Our focus is to divert waste away from landfills and to use innovative technology to transform it into usable products.

Founded in South Australia in 1993, we have grown to become one of Australia’s largest recycling businesses. Today, the ResourceCo Group employs more than 400 staff across 20 sites nationally and in Asia.

We can provide unique and practical environmental services and solutions for clients. This product guide aims to help you make informed decisions about how we can work together to meet your specific needs.

We encourage you to contact your dedicated Account Manager or our office for more information about any aspect of our services.

WHAT WE DO
Our philosophy of reduce, reuse, and recycle is central to all we do. ResourceCo is at the forefront of recycling in Australia, capturing and processing more than two million tonnes of precious resources annually. More than 95 per cent of these materials are recycled and used to generate energy or to produce high quality products for reuse in the building and construction sector.

We handle over:
- 2,000 MT of construction and demolition waste
- Supply and produce over 2,000,000 MT of Solid Alternative Fuel (TDF and PEF)

ALTERNATIVE FUELS
- Processed Engineered Fuel
- Refuse Derived Fuel
- Tyre Derived Fuel

RECYCLING
Incoming materials:
- asphalt, concrete, brick, and masonry
- commercial and industrial materials
- construction and demolition materials
- tyres and conveyor belts.

Outgoing product supply:
- aggregate, screenings, and asphalt-based products
- fixed and mobile pre-mixed concrete batching
- bulk and engineered fill.

SOIL AND WASTE MANAGEMENT
- disposal, treatment, and management of waste soils
- end-of-life disposal of non-recyclable waste
- listed and hazardous waste
- landfill (municipal solid waste)
- project specific waste
- transport and logistics.

RESOURCECO DEVELOPMENT
- carbon abatement sales and auditing
- environmental management planning
- land rehabilitation and reclamation
- mine and quarry rehabilitation.

**THE ASIA TEAM**

Highly experienced team to execute growth plans

**SIMON BROWN**
Founder and Managing Director

**PAVEL CECH**
Managing Director, Asia Operation
Experience: over 20 years’ experience with global cement producers across the Asian region with focus on energy procurement and AF. Strategic and operational direction of ResourceCo Asia’s business, developing relationships with Asian cement kiln owners.

**RYCHER LIM**
Business Development Director, Asia Operation
Experience: Over 26 years’ experience in various MNCs and start-ups. In-depth knowledge of sales, business development and logistics. Responsible for placing and moving ResourceCo’s products in Asia. Holds a BEng and MBA.

**BEN SAWLEY**
CEO
Experience: over 20 years’ experience with the Boston Consulting Group, Unilever, Boral and Cleanaway. Manages Business Development across the ResourceCo group and brings expertise in waste handling and processing.

**MURALINDRAN K**
Operation Director, Asia Operation
Experience: Vast experience in alternative fuel and the cement industry. Responsible for the day-to-day operations of ResourceCo Asia (M).

**SEAN O’GRADY**
Director, OGTEC
Experience: The engineering expert of ResourceCo Group. Specialises in mechanical Engineering and has vast experience in designing and constructing alternative fuel processing facilities.

**1991**

**1998**
ResourceCo created a dedicated mixed waste processing operation.

**2001**
ResourceCo achieves product accreditation for major road project.

**2002**
ResourceCo commences research and development to produce PEF from C&I waste.

**2004**
ResourceCo supplies recycled products to major SA expressway project.

**2005**
Major plant upgrade at main crushing plant.

**2006**
ResourceCo achieved state and national Telstra Business Awards.

**2007**
ResourceCo commences recycling activities on the combustible fraction of the Commercial and Industrial (C&I) waste stream.

**2009**
ResourceCo commences recycling activities on the combustible fraction of the Commercial and Industrial (C&I) waste stream.

**2009/10**
Achieved first annual Carbon Neutral certification

**2010**
ResourceCo commences research and development to produce PEF from C&I waste.

**2011**
ResourceCo commences research and development to produce PEF from C&I waste.

**2012**
ResourceCo commences research and development to produce PEF from C&I waste.

**2013**
ResourceCo commences research and development to produce PEF from C&I waste.

**2014**
ResourceCo commences research and development to produce PEF from C&I waste.

**2017**
ResourceCo commences research and development to produce PEF from C&I waste.
GROUP OPERATIONS

**RRF PLANT - SYDNEY**
- Location: Sydney, Australia
- Operation: Since 2018
- Production Capacity: 250,000mt/year
- Waste Stream: C&I and C&D
- Investment Cost: AUD 30 million

**PEF PLANT - ADELAIDE**
- Location: Adelaide, Australia
- Operation: Since 2006
- Production Capacity: 150,000mt/year
- Waste Stream: C&I and C&D
- Investment Cost: AUD 30 million

**PEF PLANT - MALAYSIA**
- Location: Ipoh, Perak, Malaysia
- Operation: Since 2011
- Production Capacity: 80,000mt/year
- Waste Stream: C&I
- Investment Cost: MYR 14 million

**RESOURCECO ASIA [AUSTRALIA]**
- **TYRECYCLE**
  - Darwin [EOL Tyre]
  - Brisbane [TDF]

**RESOURCESO SOUTHERN WASTE RESOURCECO**
- **TYRECYCLE**
  - Adelaide [PEF, TDF, C&D, C&I, Carbon, Concrete, EOL Landfills, Soil Treatment, Energy, Logistics]

**SUEZ-RESOURCECO VIC**
- **RESOURCECO**
  - Melbourne [TDF, C&D, Logistics, Soil]

**JAPAN**
- Main market for TDF

**KOREA**
- Main market for TDF

**PHILIPPINES**
- Main market for PEF

**RESOURCECO MALAYSIA**
- Ipoh, [PEF manufacturing]
- Port Klang [TDF Depot]
- Main market for TDF

**RESOURCECO ASIA**
- Singapore

**TYRECYCLE**
- Perth [TDF]

**TYRECYCLE**
- Hobart [EOL, Tyre]
