

RESOURCECO will continue its partnership with Casey Demons in 2018, having signed on as a major sponsor.

Casey Demons general manager of football Peter Maynard said ResourceCo had been a strong contributor to the club.

“ResourceCo has been a great supporter of the Springvale Football Club, the Casey Scorpions Football Club and now the Casey Demons Football Club for several years,” he said.

“Steve Harrison, the CEO of ResourceCo, is one of the greats of the Springvale Football Club, as a past captain and best and fairest winner, and ResourceCo do like to support local sporting organisations.

“Although ResourceCo has been a partner of the Casey Demons for the past few years, they have looked to increase their support this year and have decided to sponsor the coaches and appear on the players’ off-field apparel, as a major sponsor.”

ResourceCo is one of Australia’s largest recycling businesses.

It accepts and processes more than two million tonnes of waste each year.

ResourceCo operates state-of-the-art facilities, which manufactures a wide range of quality, recycled products from various material streams.

A key part of ResourceCo is in the production of alternate fuels from waste materials, while conserving and reusing natural resources.

All ResourceCo products are manufactured under strict quality control guidelines, putting it at the forefront of recycling innovation in Australasia.
